TIP Submittal Process

City of Boulder Transportation Master Plan (TMP)
Complete systems for all travel modes

Potential TIP project ideas are gathered from the Transportation Master Plan priorities and other planning efforts. The list is composed of project ideas that support TMP and other city goals, are ready for submittal, and hold a high probability of receiving funding through DRCOG scoring criteria.

Project ideas are developed through initial design, costs estimated, and evaluated against TIP criteria. Projects require a minimum 20% local match.
Public comment is gathered at the January public meeting, online, TAB, and City Council.

City Council approves the potential TIP projects for submittal to DRCOG subregional process, Feb 27, 2019
