This recognition encourages exchanges of diverse cultural, educational, artistic, scientific, and professional ideas and programs. Sister City relationships are important to the City of Boulder for several reasons, first as a means of assisting Boulder residents in viewing the challenges and gifts of our community in the broader

context of what is truly becoming a global community; second, to create opportunities to honor and support the diversity that gives this global community its vitality; and third, to provide citizens of Boulder with specific opportunities to directly interact with and participate in other cultures.

- 3) The City of Boulder will not enter into agreements with sister city projects that would obligate the expenditure of City funds without approval by the City Council.
- 4) Any sister city agreement entered into by the City of Boulder must contain a statement of a basic commitment of respect for human rights according to the provisions of the 1989 Vienna Concluding Document of the Conference on Security and Cooperation in Europe and other applicable international agreements on human rights and a commitment to environmental stewardship, including without limitation the policies adopted at the 1992 United Nations Conference on Environment and Development.
- 5) The City Council and City Manager will at their discretion authorize such funds as may be required for sister city related functions. The City Manager will regularly report to City Council The amount and purpose for which funds were authorized.
- 6) The City of Boulder will maintain membership in the Sister Cities International organization as necessary to enable its sister city relationships.
